

One Pager – *Stop Internet Sexual Exploitation Act*

This legislation will apply to all online platforms that host pornography. This legislation does not intend to modify existing law under the *Communications Decency Act*, Section 230.

Key components of the legislation:

- Require platforms hosting pornography to, within two weeks of enactment:
 - Require any user uploading a video to the platform **verify their identity**
 - Require any user uploading a video to the platform **also upload a signed consent form** from every individual appearing in the video.
- Creates a private right of action against an uploader who uploads a pornographic image without the consent of an individual featured in the image.
- Require platforms hosting pornography include a **notice or banner** on the website instructing how an individual can request removal of a video if an individual has not consented to it being uploaded on the platform.
- **Prohibit video downloads** from these platforms, to be in place within three months of enactment of this legislation.
- Require platforms hosting pornography offer a **24-hour hotline** staffed by the platform. Individuals who contact the hotline can request removal of a video that has been distributed without their consent.
 - Require **removal of flagged videos** as quickly as possible, but not to **exceed 2 hours**.
- Require platforms to use **software to block a video from being re-uploaded** after its removal. The platforms must have this software in place within six months of enactment of this legislation.
- Directs the Federal Trade Commission to enforce violations of these requirements.
- **Creates a database of individuals that have indicated they do not consent**. The database must be checked against before new content can be uploaded to the platforms.
 - Instructs the Department of Justice to promulgate rules on where this database should be housed, and determine how to connect these victims with services, to include counseling and casework.
 - Failure to comply with this requirement will result in a civil penalty to the platform, with proceeds going towards victims services.
